

Mohamed Maizan

HD in Computing and Software Engineering

About Me

I am a dedicated undergraduate pursuing a **Higher Diploma in Computer Science and Software Engineering** from Cardiff Metropolitan University, also serving as **Education Resource Coordinator** for the Computing Society of ICBT. I hold a **Diploma in IT** (Distinction) and two **English diplomas** (Merit). Since January 2022, My **Freelancing** has honed skills in data entry, document creation, Full-Stack web development, video editing, and presentation design. Additionally, as a **Media Monitoring Specialist** at Monitor.lk, I've developed strong analytical skills and a deeper understanding of market dynamics. Passionate about technology, I'm eager to apply my skills in a professional setting. (My [Portfolio](#))

Work Experience

Media Monitoring servicer, Monitoring LK (Contract)

April 2021 - May 2024

As a Media Monitoring Specialist at Monitor.lk, I specialize in tracking and analyzing news to provide concise reports on companies' competitive positions. My responsibilities include meticulous data collection and insightful analysis, enabling me to deliver actionable intelligence that supports clients' strategic decision-making. This role has sharpened my analytical skills and deepened my understanding of market dynamics and competitive landscapes.

Freelancer, Freelancing Sites (Freelance)

February 2019 - Present

I have been working as a freelancer since February 2022, gaining experience in data entry, document creation, and designing PowerPoint presentations. This work has enhanced my organizational skills and attention to detail, while allowing me to deliver high-quality, professional results for various clients.
